The University of Granada Modern Language Centre (CLM) is one of the leading institutions in Spain in the field of second language learning. It is one of a kind thanks to its highly-qualified and specialised teaching staff. Using a communicative approach, special emphasis is given to interaction in real life situations.

The Centre's installations, located in the old Realejo District, consist of two main buildings: the beautiful 16th century Palace of Santa Cruz and the Huerta de los Angeles Mansion. Both combine the beauty and warmth of historical buildings with the most modern technical equipment.

Another attraction of CLM is its singular multicultural and multilingual atmosphere. Foreign students can share their daily lives with those of Spanish students learning different modern languages, thus stimulating a mutual interest in their different languages and cultures.
