

ONLINE LANGUAGE EXCHANGE

How does the online language exchange work?

Welcome! If you're here, it's because you're passionate about practising languages... just like us! That's why we want to continue our language exchange activity, now, in its online version.

As we did in our weekly face-to-face meetings, we will introduce you to other participants who want to practice your mother tongue or any other language you are fluent in, matching profiles to make the exchange as successful as possible.

- ✓ Each group will be made up, approximately, of 6 participants.
- ✓ The activity will take place using Skype, so you need a good Internet connection. You will be able to join the Skype platform using your own Skype account or just as a guest, through the link provided before each exchange session.
- ✓ The organizer from the Centro de Lenguas Modernas will contact each participant before the start of the language exchange session in order to provide him/her with further details about the group. On the day and time scheduled for the exchange, any of the participants can start a group video call and everybody in that group can join it.
- ✓ Each group can stay as long as they want to make an exchange, just like in our face-to-face exchanges.
- ✓ **IMPORTANT:** To guarantee the exchange works smoothly, we inform you that any participant who registers for the event but does not finally participate (without giving at least 24 hours notice), will not be allowed to participate in the next scheduled session.
